

FLOORING BOARD

BaseTec NF

STADUR
MADE IN GERMANY

Product Information

BaseTec NF flooring board

The ideal solution for light, load-bearing floor designs. The absolutely tight connections to Stadur shower boards present no problems due to the easy-to-install groove and tongue system. Problem-free transport, low weight and easy cutting to size with a jack saw or hand saw allow uncomplicated, fast and cheap processing. Another point is the saving of energy: with a thickness of 40 mm the NF flooring board achieves a U-value of only 0.762. Laying on wooden or concrete floors is easily possible.

Your advantages:

- Extendable as desired
- Optional footstep sound absorption
- Fast, uncomplicated installation thanks to tongue and groove system
- Homogeneous pressure distribution
- Outstanding insulation characteristics
- Can be covered immediately
